

**The fastest
way to train
your staff**

...or your money back.*

* Try for 30 days and if you're not completely satisfied we'll give you a 100% refund.

Training has never been easier... or cheaper!

Staff training without the hassle

Organising staff training can be a real hassle. Coordinating rotas, paying overtime, lost production - and that's after you've persuaded finance to spend the money in the first place!

Introducing Britain's best selling 'Training In A Box'™ range...

- ⊙ **Fast**
- ⊙ **Low cost**
- ⊙ **Easy to use**

Training at your convenience

Used and trusted by some of Britain's best known companies and charities Training In A Box™ is a range of low-cost fire training DVDs, PowerPoint presentations and CD-ROMs, complete with everything you need to run effective in-house training sessions... without the hassle!

What you get

Each pack comes with a DVD style case containing two discs: the actual training disc and a Document CD containing Worksheets, Questionnaires, Certificates and more - in fact everything you need to run a professional training session covering all the basics required by the new Fire Safety Order. Our handy Pocket Guides are also available separately in durable laminated card, and are a great way to help make sure the message sticks!

Our clients include...

Kimberly Clark, Holiday Inn, Hertfordshire Constabulary, Securicor, The Salvation Army, BUPA, NHS, Kent County Council, Leicestershire County Council, DeVere Hotels, Specsavers, Rolls Royce, Hilton Hotels, Boeing Flight Safety and 100s more.

Interactive. Tried and tested DVD training

Britain's best selling range of fire training DVDs

Why are Training In A Box™ DVDs so effective?

There are three versions for general workplaces, and two especially for hospitals and care homes, so you can choose the one that's most directly relevant to *your* staff. Our best-seller 'How to Choose & Use Fire Extinguishers' includes subtitles in Polish, Lithuanian, French and Russian.

Our DVDs are never over-complicated, they're clear and concise enough to hold your trainees' without losing their interest.

Designed to enhance learning

The DVDs feature 'Pause Points' giving you time to discuss each section with your staff.

Each pack comes with a Document CD containing fact sheets, questionnaires and certificates for you to print off and use as often as you like.

Fire Marshals - The Front Line of Defence

How To Choose and Use Fire Extinguishers

Fire Safety In The Workplace

"We love the layout and format of all the Training In A Box products, especially the pause points - these give us time to question the trainees, and make sure they understand each section before we move on. This kind of group discussion really helps to keep the staff involved and attentive."

Alan Duffy - Bupa Regency Hospital

Save time and money with computer training

Our new PowerPoint and the CD-ROM editions

The New PowerPoint edition

Would you prefer a more personal approach to training? Check out our exclusive range of Training in a Box™

PowerPoint training packs. We reckon we've managed to give you the best of both worlds by combining our first class video footage with the control and versatility of Microsoft PowerPoint.

The PowerPoint range is wonderfully simple to use and ultra effective on large groups or one-on-one sessions in front of a single PC. It's so effective in fact that the NHS have already taken their first order! Fully customisable in five different versions for every type of company.

CD-ROM edition

Do most of your staff have access to PCs? Why not consider CD-ROM training? Each CD takes the trainee through the complete session step-by-step. They choose when and how often they should watch each video clip, saving you time.

When they're ready there's a Quick Quiz to test their knowledge. Having demonstrated their understanding, you will then issue the written questionnaire. Once completed this is added to their training record.

The Quiz from 'Fire Safety In The Workplace'

Company-wide, in minutes!

Perhaps the greatest benefit of CDs is that by purchasing a special licence, they can be installed on your company network, for instant access by all of your staff.

"Very comprehensive, getting all the main points over quickly and clearly."

Andy Hutchins, Securicor

Easy to teach!

Our packs are designed for people with little or no prior knowledge of fire safety, and that includes the trainer! The Trainer's Guide takes you through the whole session, step-by-step, giving you the support and confidence you need. And don't forget, we're always just a phone call away.

Easy to comply!

The easiest way to comply with the new Fire Safety Order's requirements.

At your convenience

Tired of trying to fit training around holidays, meetings and shift patterns? With Training in a Box™ you can deliver training at your convenience.

What You Get

Each pack comes with a DVD style case containing two discs: the actual PowerPoint training disc and a Document CD containing Worksheets, Questionnaires, Certificates and more - in fact everything you need to run a professional training session covering all the basics required by the new Fire Safety Order. Our handy Pocket Guides are also available separately in durable laminated card, and are a great way to help make sure the message sticks!

Want it all your own way?

If you need something more specific for your company, just let us know. We can easily customise each pack with your own logo, branding, slides and even unique video footage. Just email us for a price.
